CSR SUMMIT
2019

TAKE A STAND: DELIVERING ON THE GLOBAL GOALS

24-25 MAY 2019
HILTON TAIPEI SINBAN, TAIWAN

International CSR Summit 2019

The time to act is now. Aggressively. The International CSR Summit 2019 (ICS 2019) in Taipei once again unite thought leaders, CSR doers, public sectors, civil society from across Asia on a dynamic platform with a joint theme **Take A Stand: Delivering on the Global Goals**.

What is your part in creating a sustainable world? This summit, we wish to influence business decision makers to aggressively deliver on the 2030 agenda through its 17 Sustainable Development Goals with the message “we need to take a stand, start acting and delivering on the global goals to create a better world, none of the Sustainable Development Goals can be met unless met for all.”

Echoing the movement of the 2019 World Economic Forum in Davos, the ICS 2019 also calls for leaders to ensure nothing is left behind, and to mobilise all resources from every sector to scale up faster **to deliver effectiveness and impact, that includes innovation, financing and investment, capacity building and multi-stakeholder alliances**.

Join us at this summit to shape a sustainable future fit for humanity and generations to come.

Utilise Data and Technologies to create supply chains that are more transparent

Financing the SDGs to lower emissions across all value chains

Embrace Circular Thinking across the value chain to achieve a clean future

DAY 1 PROGRAMME : 24 MAY 2019, FRIDAY

8.00AM REGISTRATION

9.00AM OPENING OF SUMMIT

9.05AM WELCOME AND OFFICIATING ADDRESS
Tan Sri Dr. Fong Chan Onn, Chairman of Enterprise Asia

9.30AM SESSION ONE: CHANGE TO TRANSFORMATION
Change for Good and For Growth: Rethinking Business Models to Thrive in A Low-Carbon Future
Tackling climate change is creating a new wealth of opportunities, review the elements and models for a low-carbon future.

10.10AM SESSION TWO: BRIDGING SECTORS
Impactful Coalitions: Driving Change through SDGs Implementation
The more coalitions taking place across sectors, the greater the extent towards potential actions against climate change and sustainability issues.

10.40AM NETWORKING TEA BREAK

11.00AM PANEL DISCUSSION ONE:
Scaling Impact for the Earth
Most public companies' directors don't see sustainability issues as board relevant. Many investors are making it clear that they want sustainability issues addressed and they are not satisfied with simple disclosure of climate change and want their corporate boards to embed climate change and sustainability considerations into their decision making.

11.45AM SESSION THREE: SCIENCE BASED TARGETS
Removing Emissions from Supply Chain through Science Based Targets to Reach Net Zero Business
Science-based-Targets method is fast developing into a business norm to meet the goals set out in the Paris Agreement. More companies are setting SBTs to address emissions across their supply chain to provide confidence to investors, customers, partners that your company is applying best practices.

12.15PM SESSION FOUR: INNOVATION
Responsible Innovation to Achieve a Low Carbon Business
Discover some of the leading innovations, smart technologies and renewables that are shifting the move towards a low carbon and sustainable business. Transitioning to a low-carbon economy is a sure way to futureproof industries and ensure sustainable economic growth.

12.45PM SUCCESS STORY ONE

1.00PM NETWORKING LUNCH

2.00PM SUCCESS STORY TWO

2.15PM SESSION FIVE: CIRCULAR THINKING
Pioneering Circular Practices to Reach a Green and Smarter Economy
Businesses need to make significant changes to transition to a Circular Economy and enabling it to flourish. It involves innovation and solutions, new business activities, roadmaps and most importantly, to think beyond profit.

2.45PM PANEL DISCUSSION TWO:
De-Carbonising Value Chains to Reach a Net Positive and Socially Responsible Organisation
Accelerating the adoption of decarbonising actions across the company. Shifting to a sustainable, socially responsible, low carbon economy to futureproof economy and planet.

3.30PM SESSION SIX: CLIMATE FINANCING
Unlocking Capital to Finance the Sustainable Development Goals
Wealthy countries are not mobilising enough resources to help poor countries or to reach carbon neutrality which falls far short of the \$100 billion that countries are supposed to be delivering annually by 2020.

4.00PM SESSION SEVEN: DESIGN FOR SUSTAINABILITY
Shaping The Future Of Cities
Analysis of how innovations in design, engineering and technology are improving the built environment.

4.30PM CLOSING AND NETWORKING TEA

DAY 2 WORKSHOP

25 MAY 2019, SATURDAY
