

We make science accessible

We have a clear and focused approach, built around three pillars.

Access to healthcare

Everyone should have access to effective medicines and healthcare services, no matter where they are or what their income.

Environmental protection

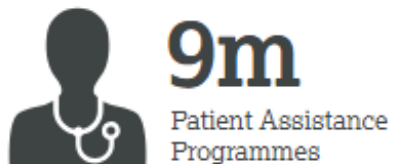

Using innovative science to make a positive impact on society and to protect our air, land and water.

Ethics and transparency

Leading the industry in ethical business practices and applying the same high standards for all our suppliers, partners and employees.

Access to healthcare

Access to healthcare: Taiwan

OUR PROGRAMMES

PATIENT ASSISTANCE
PROGRAMMES

DIABETES IN ACTION

HEALTHY LUNG ASIA

TAIWAN'S CHALLENGE

28%

cancer mortality rate in
Taiwan, highest in Asia
