

# Queensland's resources sector into the future

Shaun Ferris

Deputy Director-General (Georesources)

# Taiwan

\* ESTIMATE

# Opportunities

- Queensland is a safe investment destination with low sovereign risk
- Dedicated government hubs supporting coal, mineral and P&G exploration and investment
- Forward program of land releases for exploration
- Understanding of future supply and demand trends
- Data science approach + open data portal for resources exploration

# Initiatives

- Continued investment by government + industry will drive diversification in the resources sector
- Collaborative scientific research initiatives with government + research + private sector
- Strategic Resources Exploration Program + Blueprint
- Competitive grants + tenders + initiatives
- Open + agile approach to digital transformation and beyond
