

## ARE YOU A STRATEGIC INVESTOR?

### WANT TO INVEST IN THE HUNGARIAN BIOTECHNOLOGY SECTOR?

If so, take a look at our latest recommendation:

## Omixon Genome Computing Services (Bioinformatics)

**Your contact persons:** Project Contact: Bernadett Fodor – [bernadett.fodor@itd.hu](mailto:bernadett.fodor@itd.hu)  
Project Manager: Tamás Székely – [tamas.szekely@itd.hu](mailto:tamas.szekely@itd.hu)

The Omixon web portal provides easy-to-use, cost-effective, reliable and secure software and infrastructure for calculations related to gene and genomic sequencing. The project is currently in beta but is in the manufacturing, distribution and sales phase.

### Investment capital will be used for:

- Product development and R&D: €2,000,000 (grant-funded)
- FPGA computational infrastructure: €500,000-€1,000,000
- Sales, marketing and business development: €500,000-€1,000,000
- Product enhancement: up to €1,000,000
- The project currently has investment capital of over €2,000,000, mostly in the form of government grants

We believe this project represents an exceptional opportunity. The project owner expects a return on the total investment of **€3,000,000 to €5,000,000** within 3-7 years (25-70% IRR). The exit value of the company in 5 years is forecast at **€50,000,000 to €200,000,000**, which would require follow-on investment rounds totalling **€10,000,000 to €20,000,000**. The project owner is looking for a joint-venture partner to acquire partial ownership in the company, or an investor looking to boost project capital.
