International Tax Conference

“Digitalization and the Future of Profit Taxation”

June 29th, 2018 in Munich, Germany

We are pleased to announce an international tax conference, jointly hosted by Business at OECD (BIAC), ICC and BusinessEurope, focusing on “Digitization and the Future of Profit Taxation”. The conference will provide the opportunity to have interactive discussions on key topics of interest for the business community and will be structured with four sessions, each being composed of an interview and followed by a panel discussion with distinguished speakers. Details on the panel speakers will be provided in due course, with the invitation. The key speakers on the individual panels are included below:

Session 1 on Digitalization of Tax and Tax Functions

- Krister **Andersson**, Chair of the BusinessEurope Tax Policy Group
will interview
- Maria Teresa **Fabregas**, European Commission, Director Indirect Taxation/Tax Administration

Session 2 on the Taxation of Digital Business Models

- Prof. Wolfgang **Schön**, Max-Planck-Institute (MPI) Munich, Managing Director
will interview
- Gael **Perraud** (tbc), French Ministry of Economy and Finance,
Director of European and International Affairs in the Tax Policy Department

Session 3 on Dispute Prevention and Dispute Resolution

- Prof. Christian **Kaeser**, Siemens, Chair of the ICC Commission on Taxation
will interview
- Michael **Lennard**, UN, Chief of International Tax Cooperation

Session 4 on the Future of Profit Taxes

- Will **Morris**, PWC, Chair of the BIAC Tax Committee
will interview
- Representative from an OECD Member State (tbc)

→ **June 29th, 2018 between 9.00 a.m. and 5.30 p.m.**
